

Pesticides Used on Cherry in PNW

U.S. Tolerance Compared to Taiwan MRLs

		US ¹	Taiwan ²
Cherry	Acetamiprid* (Assail)	1.2	{1}
		<p>1. United States does not maintain a specific MRL for the Acetamiprid/Cherry combination, but does maintain an MRL of 1.2 PPM for its "Fruit, Stone, Group 12" group.</p> <p>2. Taiwan does not maintain a specific MRL for the Acetamiprid/Cherry combination, but does maintain an MRL of 1 PPM for its "Pome" group.</p>	
		US	Taiwan ³
Cherry	Azinphos-methyl* (Guthion)	2	2
		<p>3. Taiwan does not maintain a specific MRL for the Azinphos-methyl/Cherry combination, but does maintain an MRL of 2 PPM for its "Pome" group.</p>	
		US ⁴	Taiwan
Cherry	Azoxystrobin* (Abound)	1.5	{1}
		<p>4. United States does not maintain a specific MRL for the Azoxystrobin/Cherry combination, but does maintain an MRL of 1.5 PPM for its "Stone Fruits" group.</p>	
		US	Taiwan
Cherry	Bifenazate (Acramite)	2.5	---
		US ⁵	Taiwan
Cherry	Boscalid (Pristine)	1.7	---
		<p>5. United States does not maintain a specific MRL for the Boscalid/Cherry combination, but does maintain an MRL of 1.7 PPM for its "Fruit, Stone, Group 12" group.</p>	
		US	Taiwan
Cherry	Captan*	50	15 (2008 Provisional list; 3 (pending WTO notification)
		US ⁶	Taiwan ⁷
Cherry	Carbaryl* (Sevin)	10	{1}
		<p>6. United States does not maintain a specific MRL for the Carbaryl/Cherry combination, but does maintain an MRL of 10 PPM for its "Fruit, Stone, Group 12" group.</p> <p>7. Taiwan does not maintain a specific MRL for the Carbaryl/Cherry combination, but does maintain an MRL of 1 PPM for its "Pome" group.</p>	
		US ⁸	Taiwan
Cherry	Chlorantraniliprole (Altacor)	1	---
		<p>8. United States does not maintain a specific MRL for the Chlorantraniliprole/Cherry combination, but does maintain an MRL of 1 PPM for its "Fruit, Stone, Group 12" group.</p>	

Please see results key at end of table for explanation of symbols and shading.

		US	Taiwan
Cherry	Chlorothalonil* (Bravo)	0.5	---
		US	Taiwan⁹
Cherry	Chlorpyrifos* (Lorsban)	1	1
		9. Taiwan does not maintain a specific MRL for the Chlorpyrifos/Cherry combination, but does maintain an MRL of 1 PPM for its "Pome" group.	
		US	Taiwan
Cherry	Clofentezine (Apollo)	1	{0.5}
		US	Taiwan¹⁰
Cherry	Diazinon*	0.2	1
		10. Taiwan does not maintain a specific MRL for the Diazinon/Cherry combination, but does maintain an MRL of 1 PPM for its "Pome" group.	
		US	Taiwan
Cherry	Endosulfan* (Thiodan)	2	{0.5}
		US	Taiwan
Cherry	Etoxazole (Zeal)	1	---
		US	Taiwan¹¹
Cherry	Ethephon (Ethrel)	10	{2}
		11. Taiwan does not maintain a specific MRL for the Ethephon/Cherry combination, but does maintain an MRL of 2 PPM for its "Pome" group.	
		US	Taiwan
Cherry	Fenarimol* (Rubigan)	1	1
		US	Taiwan
Cherry	Fenbuconazole (Indar)	1	---

Please see results key at end of table for explanation of symbols and shading.

		US	Taiwan ¹²
Cherry	Fenbutatin-oxide (Vendex)	6	{2}
12. Taiwan does not maintain a specific MRL for the Fenbutatin-oxide/Cherry combination, but does maintain an MRL of 2 PPM for its "Pome" group.			
		US ¹³	Taiwan ¹⁴
Cherry	Hexythiazox* (Savey)	1	{0.5}
13. United States does not maintain a specific MRL for the Hexythiazox/Cherry combination, but does maintain an MRL of 1 PPM for its "Fruit, Stone, Group 12" group. 14. Taiwan does not maintain a specific MRL for the Hexythiazox/Cherry combination, but does maintain an MRL of 0.5 PPM for its "Pome" group.			
		US ¹⁵	Taiwan
Cherry	Imidacloprid* (Provado)	3	---
15. United States does not maintain a specific MRL for the Imidacloprid/Cherry combination, but does maintain an MRL of 3 PPM for its "Fruit, Stone, Group 12" group.			
		US	Taiwan ¹⁶
Cherry	Iprodione* (Rovral)	20	{5}
16. Taiwan does not maintain a specific MRL for the Iprodione/Cherry combination, but does maintain an MRL of 5 PPM for its "Pome" group.			
		US	Taiwan
Cherry	Malathion*	8	---
		US ¹⁷	Taiwan
Cherry	Metconazole (Quash)	0.2	---
17. United States does not maintain a specific MRL for the Metconazole/Cherry combination, but does maintain an MRL of 0.2 PPM for its "Fruit, Stone, Group 12" group.			
		US ¹⁸	Taiwan
Cherry	Methidathion* (Supracide)	0.05	---
18. United States does not maintain a specific MRL for the Methidathion/Cherry combination, but does maintain an MRL of 0.05 PPM for its "Fruit, Stone, Group 12" group.			
		US ¹⁹	Taiwan
Cherry	Methoxyfenozide (Intrepid)	3	---
19. United States does not maintain a specific MRL for the Methoxyfenozide/Cherry combination, but does maintain an MRL of 3 PPM for its "Fruit, Stone, Group 12" group.			

Please see results key at end of table for explanation of symbols and shading.

		US	Taiwan ²⁰
Cherry	Myclobutanil* (Rally)	5	{0.5}
		20. Taiwan does not maintain a specific MRL for the Myclobutanil/Cherry combination, but does maintain an MRL of 0.5 PPM for its "Pome" group.	
		US ²¹	Taiwan ²²
Cherry	Propiconazole* (Orbit)	1	1
		21. United States does not maintain a specific MRL for the Propiconazole/Cherry combination, but does maintain an MRL of 1 PPM for its "Fruit, Stone, Group 12" group. 22. Taiwan does not maintain a specific MRL for the Propiconazole/Cherry combination, but does maintain an MRL of 1 PPM for its "Pome" group.	
		US ²³	Taiwan
Cherry	Pyraclostrobin (Cabrio/Pristine)	0.9	---
		23. United States does not maintain a specific MRL for the Pyraclostrobin/Cherry combination, but does maintain an MRL of 0.9 PPM for its "Fruit, Stone, Group 12" group.	
		US ²⁴	Taiwan ²⁵
Cherry	Pyriproxyfen* (Esteem)	1	{0.5}
		24. United States does not maintain a specific MRL for the Pyriproxyfen/Cherry combination, but does maintain an MRL of 1 PPM for its "Fruit, Stone, Group 12" group. 25. Taiwan does not maintain a specific MRL for the Pyriproxyfen/Cherry combination, but does maintain an MRL of 0.5 PPM for its "Pome" group.	
		US ²⁶	Taiwan
Cherry	Quinoxyfen (Quintec)	0.7	0.3 (pending WTO notification)
		26. United States does not maintain a specific MRL for the Quinoxyfen/Cherry combination, but does maintain an MRL of 0.7 PPM for its "Fruit, Stone, Group 12" group.	
		US ²⁷	Taiwan
Cherry	Spinetoram (Delegate)	0.2	---
		27. United States does not maintain a specific MRL for the Spinetoram/Cherry combination, but does maintain an MRL of 0.2 PPM for its "Fruit, Stone, Group 12" group.	

Please see results key at end of table for explanation of symbols and shading.

		US ²⁸	Taiwan
Cherry	Spinosad (Success)	0.2	0.2 (2008 provisional list)
		28. United States does not maintain a specific MRL for the Spinosad/Cherry combination, but does maintain an MRL of 0.2 PPM for its "Fruit, Stone, Group 12" group.	
		US ²⁹	Taiwan
Cherry	Tebuconazole* (Elite)	5	{2}
		29. This MRL refers to Cherry, sweet and Cherry, tart, pre- and post-harvest.	
		US ³⁰	Taiwan
Cherry	Thiamethoxam* (Actara)	0.5	---
		30. United States does not maintain a specific MRL for the Thiamethoxam/Cherry combination, but does maintain an MRL of 0.5 PPM for its "Fruit, Stone, Group 12" group.	
		US	Taiwan ³¹
Cherry	Thiophanate-methyl* (Topsin-M)	20	{3}
		31. Taiwan does not maintain a specific MRL for the Thiophanate-methyl/Cherry combination, but does maintain an MRL of 3 PPM for its "Pome" group.	
		US ³²	Taiwan
Cherry	Trifloxystrobin* (Flint)	2	---
		32. United States does not maintain a specific MRL for the Trifloxystrobin/Cherry combination, but does maintain an MRL of 2 PPM for its "Fruit, Stone, Group 12" group.	
		US	Taiwan ³³
Cherry	Triflumizole* (Procure)	1.5	{1}
		33. Taiwan does not maintain a specific MRL for the Triflumizole/Cherry combination, but does maintain an MRL of 1 PPM for its "Pome" group.	
		US	Taiwan ³⁴
Cherry	Ziram	7	{2.5}
		34. Taiwan does not maintain a specific MRL for the Ziram/Cherry combination, but does maintain an MRL of 2.5 PPM for its "Pome" group.	

Results Key

MRL values in {*Red Italics*} are more restrictive than US

--- indicates no MRL value is established.

Cod, EU, etc. indicates the source of the MRL and EXP means the market defers to the exporting market.

All numeric values listed are in parts per million (ppm), unless otherwise noted

* Means a.i. is on list for testing by Taiwan's DOH

Gray shading indicates an MRL 50% or less of U.S. tolerance.

Please see results key at end of table for explanation of symbols and shading.
